

MEDVu-rDoc

MEDVu-rDoc RetroFit

By Total Cart Solutions & Integration

The Medvu-rDoc - RetroFit Doctor On Call - brings high definition video conferencing to an affordable platform for telehealth. The equipment is housed in a highly mobile and lightweight platform designed to be used at the point of care. The rDoc supports Cisco SX20, C40, Polycom HDX series, Group 310, 500. It is the ideal platform for clinical environments, continuing medical education (CME), remote healthcare training, teleconsultation, remote multi-hospital clinical and administrative meetings as well as remote mentoring.
