## RWALL ROLLING ACRYLIC BARRIER

*Standard and custom-designed mobile acrylic barriers. Designed to ensure that contact is limited while maintaining an "open concept" environment through clear acrylic window viewing panels. Custom colours and sizes available.*

## OPEN CONCEPT FEEL WITH LIMITED CONTACT

The clear acrylic panel is shatter resistant and extremely durable ensuring a long life cycle under heavy use. These mobile units are supplied with smooth rolling heavy duty swivel casters that are easily locked into position when required. All models allow the end user to easily remove the casters and with a slight modification become a stationary unit that is fastened down directly to the floor. Professional engineering and custom on-site design services are available. We can work with you to design a custom solution if one of our standard models doesn't fit your exact needs. Let Total Cart Solutions design and fabricate your own custom model to suit your specific requirements.
