

TOTAL CART SOLUTIONS

Electronic methods of communicating & interacting with patients and colleagues. Delivering video conferencing to health care in urban centres as well as remote rural regions.

EFFICIENT & QUALITY CARE, JUST A CLICK AWAY.

We are a passionate company with over 20 years experience in providing technology, lifecycle management for public and private sector organizations. In the healthcare space, we help enable the telemedicine evolution. A convergence of technologies new and old, while maintaining compliance. We understand the need to extend the life of technology investments by providing custom fabrications, integration and installation as well as certification services for our products.
